Select Applicable Programs

Environment Canada and Partner Programs

To add the Programs which are applicable to this particular facility, and its reportable substances, click "Add New". Please note that once you have selected your programs and clicked the "Add Items" button on the following screen, you will not be able to remove them from your report.

| Program Name | Description |
|--------------|--|
| NPRI | National Pollutant Release Inventory |
| ON MOE TRA | Ontario Ministry of the Environment for the Toxics Reduction Act |

Select the Facility Contacts

Contacts

Please assign the appropriate contact under each category below.

Technical Contact:

Martin Vanier

Certifying Official:

Tim Bannon

Highest Ranking Employee:

Tim Bannon

Person who prepared the report:

Martin Vanier

Company Coordinator (optional):

Public Contact (optional):

Martin Vanier

Contractor Contact (optional):

If you are an independent contractor or consultant, please enter your company name in the field below.:

Person who coordinated the preparation of the Toxics Reduction Plan (optional):

Employees and Activities

Employees

Number of Employees:

100

Activities

Activities for Which the 20,000-Hour Employee Threshold Does Not Apply. Activities that took place at the facility: (check all that apply)

- None of the above

Activities Relevant to Reporting Dioxins, Furans and Hexachlorobenzene. Activities that took place at the facility: (check all that apply)

- None of the above

Activities Relevant to Reporting of Polycyclic Aromatic Hydrocarbons (PAHs)

Did the following activity take place at the facility?

Wood preservation using creosote:

General Facility Information

NPRI

Select an answer to each of the questions below and click Save then Continue to proceed.

Is the facility required to report on disposals of tailings and waste rock for the selected reporting period?:

Is this the first time the facility is reporting to the NPRI (under current or past ownership)?:

Is the facility controlled by another Canadian company or companies?:

Did the facility report under other environmental regulations or permits?:

Is the facility required to report one or more NPRI Part 4 substances (Criteria Air Contaminants)?:

If 'Yes':

Was the facility shut down for more than one week during the year?:

General Comments for Facility

Comments:

Pollution Prevention Section

Pollution Prevention Plans

Does the facility have a documented facility-wide pollution prevention plan?:

If 'Yes'

a) Please check all that apply

b) Did the facility update their plan in the current reporting year?

c) Does the plan address substances, energy conservation, or water conservation?

Pollution Prevention Plan Comments:

Pollution Prevention Activities

Did the facility complete any pollution prevention activities in the current NPRI reporting year?:

Selecting "Yes" will initiate the reporting of the specific pollution prevention activities that were completed in the current reporting year on the following screen.

SWIM Validation

The information in this section was copied from SWIM at the time the report was created. Please verify the information and update it where required. Please note that any changes made here will only be reflected in this report. To ensure updates reflected in future reports, please ensure the information is updated in SWIM. After making updates in SWIM, return here and click the "Refresh" button to trigger a reload of the SWIM information. Please note all previously entered data will be modified.

Substance Details

NA - 01, Antimony (and its compounds)

Activities**Substance Reporting Status****Please select the program status.****NPRI**

Does this substance meet the criteria specified in the Canada Gazette notice? Selecting "No" indicates voluntary reporting of this substance to the NPRI:

ON MOE TRA

Does this substance meet the criteria specified in the Ontario Regulation 455/09 under the TRA? Selecting "No" indicates voluntary reporting of this substance to the ON MOE:

Would you like to create an exit record for this ON MOE TRA substance?:

Comments:

General Information

Indicate if there were On-site Releases, Disposals or Off-site Transfers to the environment by choosing Yes or No from the drop-down boxes beside the questions below.

On-site Releases to the Environment

Was the substance released on-site?:

If the substance was released on-site and the total quantity released was less than one tonne ...

-
- The substance will be reported as the sum of releases to all media (total of 1 tonne or less).

Disposals and Off-site Transfers for Recycling

Was the substance disposed of (on-site or off-site), or transferred for treatment prior to final disposal?:

Was the substance transferred off-site for recycling?:

Nature of Activities

Indicate whether the substance was manufactured, processed, or otherwise used, by selecting the nature of such activities.

Manufacture the Substance**Process the Substance**

- As a formulation component

Otherwise Use of the Substance**General TRA Information****Enters the facility (Use), Creation, Contained in Product for ON MOE TRA****Enters the facility (Use)**

The amount of substance that enters a process as the substance itself or part of another substance, rolled up at the facility level.

Quantity (tonnes):

Do you want to use ranges for public reporting? If "No" is selected you are indicating that any report to the public may contain the exact quantity provided.:

Creation

The amount of substance that is created

Quantity (tonnes):

Do you want to use ranges for public reporting? If "No" is selected you are indicating that any report to the public may contain the exact quantity provided.:

Contained in Product

The amount of substance contained in product

Quantity (tonnes):

Do you want to use ranges for public reporting? If "No" is selected you are indicating that any report to the public may contain the exact quantity provided.:

Change in Method of Quantification

- There has been a change in the method or combination of methods used to track and quantify the substance during the previous calendar year

Describe the changes:

Select the reason for change

For the purposes of complying with a requirement under an Act, an Act of Canada, or a municipal by-law

A result of review of the current version of the toxic substance reduction plan for the substance under section 7 of the Act

Describe how the change impact tracking and quantification of the substance:

Incidents out of the normal course of events

- There have been incidents out of the normal course of events that occurred at the facility during the previous calendar year that affected the results of tracking/quantification of this substance.

Explain how tracking and quantifications were affected:

Significant Process Change

- There has been a significant process change at the facility during the previous calendar year.

On-site Releases of the Substance

In order to calculate totals, you must click the "Save" button

Reasons for Changes in Quantities Released from Previous Year

Select the applicable reason or reasons

- No significant change (i.e. < 10%) or no change

Comments ? (On-Site Releases):

Disposals and Transfers of the Substance

Reasons Why Substance Was Disposed

- Production residues
- Contaminated materials

Disposals (excluding Tailings and Waste Rock)

In order to calculate totals, you must click the "Save" button

On-site Disposal

| | Basis of Estimate | Quantity (tonnes) |
